Even this does not seem to be correct—

8. Bye-laws IX and X were framed not under clause 4 of section I as erroneously stated by the President but under cl: 1 of section IV and cl: 2 of section VI of the Rules respectively.

9. Clause 4 of section I empowers the Sanitary Board to frame bye-laws "for the conduct of its business and for the guidance of its members and servants".

Cl: 1 of section 4 and cl: 2 of section VI refer to

has not rules quite so advanced as those proposed here; but that is no reason why the Sanitary Board should not ~~do one better~~ excel them.

Is it necessary to introduce such rules as having bells for rubber-tyred vehicles & bicycles &c & such wide areas?

The rules at present at any rate would be ultra vires. The Regulation has to be amended - unless these matters are held to fall under sub-s. 3 of S. 24 of the Mines Regn. The licensing of bakeries &c would not be covered by the provisions of these 2 sections, as they stand (24-25)

Under sec. 24 of the Mines Regn (as amended by Regn VI of 1900) the Govt may make rules for the "special sanitation" of the [illegible] matters that may be dealt with in such rules are those

enumerated in clauses (i) to (vi) that section. under sec. 25
the Govt may invest the Local Board with powers for the enforcement of the said rules, and prescribe the mode in which it shall conduct its business for carrying out the said rules" [sic.].

Now, it is quite clear that a rule insisting on vehicles being lighted, provided with bells, etc, is not one of the specific matters that relate to enumerated in s. 24, but does not pertain to sanitation at all. The Govt could not frame such a rule, much less can the Local Board frame a bye-law to that effect.

The other bye-law relates to the licensing of bakeries and aerated water manufactories. It aims, to all intents and purposes, solely at raising more money for the coffers of the Board; and I find it difficult to trace any sanitary purpose underlying its provisions. The extraordinary section, that the bye-law is one relating to the "conduct of the Board's business" (a phrase which has a well-understood meaning) must be dismissed at once.

The validity of some of the bye-laws already framed by the Board may perhaps not be beyond question; but the argument that Govt has approved

[I have not considered this question.]

C

of one such bye law (No X) it cannot object to "go a step further," does not seem to be pointed.

Finally, the President suggests that the Sanitary Board may be given "power to frame their own bye laws to the same extent as those enjoyed by the Cities of Mysore and Bangalore." Supposing this is desirable, I do not think we need an amendment of the law relating to the special subject of Mines (and their inspection and sanitation) is the proper way of attaining that object. A far better course would be to wait till the Draft Municipal Regn is passed, and then, if necessary, to turn the Sanitary Circle into a Municipality. The needs and conditions of that area seem to have outgrown what could be provided for under a Military section or two in the Mines Regn.

I have already recorded what I think of these proposed

I do not know if the area is compact enough for a municipal area. The Rules & Regns of the a L.B.Bd may perhaps be more in place.

Revised Bye-law

The following revised bye-law for the licensing of shops, stalls, premises and all other places whatsoever, intended or used for the sale or storage of meat, poultry, fish, fruit, vegetables, grain, or other articles of human consumption, has been framed by the Kolar Gold Fields Sanitary Board under rule 4 of section VI of the Kolar Gold Fields Sanitary Rules, and, having received the approval of Government, is published for general information: -

1. No person shall use any place for the sale or storage of, or expose therein for sale, meat, poultry, fish, fruit, vegetables, grain, or other articles of human consumption, unless he has previously applied to, and obtained from, the President* a license for that purpose. Such license shall be in force only during the official year for which it is granted, and shall thereafter be renewed annually.

2. The President may, in his discretion, grant or refuse to grant such license, provided that every order refusing a license shall be in writing and shall state the grounds for refusal.

Provided also that, where a shop, stall, premises, or other place, in respect of which the license is applied for, is situate within the boundaries of any Mining Company, the President shall refer the application in the first instance

"Grain or other articles of human consumption" are not in the Sanitary Rules passed by Govt.

This does not empower the Bd to make bylaws. Vide my note.

* It is "a Sanitary Officer" in the Rules passed by Govt.

nce to the Chief Medical Officer of the Mining Board for opinion, and that, if the latter considers (for reasons to be stated in writing) that such shop, stall, premises or other place is unsuitable for such purpose, the President shall not grant a license.

3. Where a shop, stall, premises or other place already licensed under this bye-law becomes, in the opinion of the Chief Medical Officer of the Mining Board, or of the President, unsuited for the purpose for which it was licensed, the President may in his discretion cancel the license, or suspend the license until such place has, in his opinion, or in that of such medical officer, been made suitable for the said purpose.

4. Applications for renewal of licenses must be made to the President before the end of the first month of each official year, i.e., before the end of July in each year.

5. The following fees per annum shall be charged for licenses granted under this bye-law, viz:-

	Rs. As. P.	
For sale of Meat -- --	5 - 0 - 0	per annum
" Fresh Fish	2 - 0 - 0	"
" Poultry -	2 - 0 - 0	"
" Salt fish -	1 - 0 - 0	"
" Vegetables -	1 - 0 - 0	"
" Fruit - -	1 - 0 - 0	"
" Grain and other articles of consumption-----	1 - 0 - 0	"

6. Whoever, without previously obtaining from the President a license

under clause 1 of this bye-law, uses any shop, stall, premises or other place, not being a licensed market or stall, for the sale or storage of, or exposes therein for sale, any meat, poultry, fish, fruit, vegetables, grain or other articles of human consumption, shall be liable on conviction to the penalty prescribed in section 26 of the Mysore Mines Regulation, III of 1897, i.e., to a fine not exceeding one hundred rupees.

7. Every license granted under this bye-law shall be in the following form and subject to the conditions attached thereto.

8. The President may, at his discretion, delegate all or any of the powers conferred on him by this bye-law to the Vice-President.

_____ son of _____ is hereby licensed to keep a shop (or stall or premises ~~as~~ a place as the case may be) for the sale (or storage) of _____ subject to the following conditions, namely:-

1. That such shop, (or stall, or premises ~~)~~ or place) shall at all times be open to free access for inspection by any member or Sanitary Officer of the Board, and its license always available, ~~for~~ on demand, for his inspection.

2. That the licensee shall not sell ~~(or store)~~ or place or store or offer for sale therein, the flesh of any animal that has not been slaughtered in a licensed Slaughter House.

3. That the licensee shall not sell, ~~(or store)~~ or place or store or offer for sale, therein, any meat, fish, ~~poultry~~ poultry, fruit, vegetables, grain, or other article intended for human consumption, which is, in the opinion of the Chief Medical Officer (of the Mining Board) or any officer of the Sanitary Board not lower than the Sanitary Inspector, unfit for that purpose.

4. That the licensee shall keep the shop (or stall or premises ~~)~~ or place) in a clean and sanitary condition, and shall at once obey any order in respect of the cleaning or sanitation thereof which may be given him in writing signed by the President, or by such Sanitary Officer

as may be deputed by him in this behalf.

5. That the licensee shall keep in his shop (or stall or premises) true scales and standard weights.

6. That a breach of any of the above conditions by the licensee or by his servants shall render the licensee liable, on conviction, to fine not exceeding one hundred rupees, and also render the license liable to cancellation at the option of the President.

5. Write on both sides, leaving the same side as margin.

Note.

A revised draft of Bye-law X and of the license form appended to it, is put up as required by the 2nd Councillor.

A license can only be necessary for selling and storing: no man is likely to desire one for merely exposing for sale. At the same time, ~~each~~ such exposure by an unlicensed person has to be prohibited. These considerations explain why in the enacting part of the revised bye-law and of the license form, the reference is to sale and storage only, and why in the prohibitory clause 1 and the penal clause 6 of the bye-law, and in paras 2 & 3 of the license form, exposure for sale is also referred to. // The original clause 4 has been omitted as now unnecessary.

I have ventured to point out, on another occasion, ~~that~~ the extent of the Sanitary Board's ~~has no~~ authority to frame bye-laws ~~other than those required for the conduct of its business and for the~~

[Vide my note of 11-11-02]

~~guidance of its members and servants." (See rule 4 of Section I of the Sanitary Rules.~~ here) I may add that Rule 4 of Section VI, under which the present bye-law professes to be issued, does not empower the Board to frame such a bye-law at all. In the next place the "continuing" penalty attached to clause6 of the original bye-law is entirely unauthorised, and opposed to section 26 of the Mines Regulation, the penalty prescribed by which, for a breach of rule made by Government, is fine not exceeding Rs.100.

If, however, it is considered inconvenient to raise the question of the legality of a bye law already approved by Govt., then the President may be asked to place the revised bye law before the Sanitary Board & obtain its concurrence thereto.

Government Proceedings No. 10046—L. F. 17-99, dated the 6th March 1900, approving of the Bye-laws proposed by the Sanitary Board, Kolar Gold Fields, under the Sanitary Rules of 4th September 1899.

Also letter No. 446, dated the 5th May 1900, from the President of the Sanitary Board, Kolar Gold Fields, (through the Deputy Commissioner, Kolar district,) submitting certain amendments to the above Bye-laws.

No. 4031—L. F. 17-97, DATED BANGALORE, 14TH SEPTEMBER 1900.

ORDER THEREON—The necessity for a revision of the Bye-laws in question so soon after they were sanctioned by Government is attributed primarily to the fact that they had not been fully discussed by the Members of the Sanitary Board before submission to Government. The Government view the circumstance with disapproval, and trust that the Board will in future avoid approaching Government with proposals which have not been carefully considered by them in the first instance.

2. The majority of the alterations now proposed appear to be more or less in the nature of an improvement. But the revised condition (1) under the schedule is open to exception in so far as it contemplates dispensing with the previous submission of plans and specifications in the case of bungalows and their out-houses. Government do not consider that the restriction proposed to be removed, which is believed to be in force in all leading municipalities everywhere, ought to be felt as irksome or vexatious by any class of persons. The proposal, which in itself is objectionable on principle, is moreover opposed to the provisions contained in Section IV of the Sanitary Rules of September 1899. The words "of bungalows and their out-houses and" in the revised condition must therefore be struck out.

3. With these observations the revised draft of the Bye-laws is approved and returned to the President of the Board, who will cause the same to be published as usual in Part II of the *Mysore Gazette*.

Kolar Gold Fields Sanitary Board

Bye-Laws

The following Bye-Law to provide for the regulating and licensing of places and shops or stalls intending for sale of meat, fish, vegetables, fruit, grain & other articles of human consumption, passed under Section VI cl: 4 of the Sanitary Rules framed under Section 24 of the Mysore Mines Regulation Act III of 1897.

1. Any person making use of any place or building as a retail shop or stall for the sale or store or exposure for sale of meat, poultry, fish, fruit, vegetables, grain, or other articles of human consumption, shall apply to the President for a license, which license shall be in force for the current official year in which it is granted and must thereafter be renewed annually.

2. The President may at his discretion grant or refuse such license, provided that every order refusing such license shall be in writing, and shall state the ground or grounds for refusal.

Provided also that before grant of such license, where the shop, stall or place applied for is situated within the boundries of any Mining Company the President shall refer the application to the Chief Medical Officer, Kolar Gold Fields, for his opinion and that if the Principal Medical Officer, condemns such shop, stall or premises as unsuitable, the license shall be refused, and that if any shop stall or premises licensed under this Bye-Law becomes in the opinion of the Chief Medical Officer, or President, unsuited for the purpose for which it was licensed, the President may at his discretion cancel the license, or suspend it until the place has in his opinion been made suitable for the said purpose.

3. Applications for licenses for existing shops, stalls or premises must be made within one month from the date of the promulgation of this Bye-Law.

4. Applications for renewal of licenses must be made to the President before the end of the first month of each official year *i. e.* before the end of July in each year.

the necessity for troubling Government in the matter as shortly after their approval to the original M & O bye laws had been obtained but the fact is that the bye-laws were sent up never having been fully discussed by the members of the Board and were published owing to the mistake of the Compiler Mysore Gazette in not first sending as asked by me a final proof of the Bye-laws for a full discussion and consideration of them by the members of the Board.

and in its 2 subsequent issues

require amendment and that

they be amended as follows. and

that Government be requested

to approve thereof and to have

the amendments published in

three successive issues of the Gazett

That wherever the word "Bi-monthly" occurs in the Bye-Laws the words "an ordinary" be substituted.

Remarks

Alteration necessitated because the ordinary meetings are not necessarily twice a month as the word "Bi-monthly" would imply - nor are they necessarily only one every 2 months. The Bye-Law merely insisting that an ordinary meeting shall be held not less than once every two months. RHB

That in Bye-law No I Clause (b) after the word "quorum" the words "at least one" be substituted for the word "two" and in the same line after the words "shall be" the words "an official member" be inserted, instead of "official members" and that the words "in addition to his ordinary vote" be added to the words "a casting vote"

This is necessitated by the fact that, given the Inspector of Mines off the fields as he is frequently - and the Principal Medical Officer, who is also the Plague Officer, engaged on other urgent duty, if two official members are insisted on to enable a quorum to be formed, the meeting would frequently fall through for want of them. RHB

That in Line 4 of Bye Law No IV the word "an" be substituted for the word "its"

That in the 4th Line of Bye Law No VI the words "Such diaries to be submitted every week to the President through the Sanitary Inspector" be deleted and the Sentence "The President shall make such arrangements for the submission of these diaries

Necessitated because one President may, (as in fact I do) prefer the Sanitary overseer to submit daily diaries to the Sanitary Inspector and the Sanitary Inspector to submit a daily one to the President, while another may prefer a different arrangement altogether. RHB

Remarks.

Clause(e) as it stands is worthless and meaningless and extremely irksome, and its complete deletion was considered advisable by all the members of the Board. RBL

Necessitated because limewashing once in 3 months unanimously considered by the members of the Board to be irksome and unnecessary and extremely unlikely to be done by any of the Mine Superintendent except under great protest RBL.

VIII Was manifestly a clerical mistake which the printers might have seen and corrected. The words "Bye Law No VII" followed the mistake as a natural consequence. RBL.

Proviso necessitated because without it the Condition was unnecessarily

to himself as he may from time to time think best" substituted.

That Clauses(e) and(f) of Bye Law No VIII be omitted and a clause to be called clause(e) substituted as follows.

"The owner or occupier shall keep his premises clean, in good repair and in a satisfactory Sanitary Condition"

That instead of "VIII" the last clause be called clause (f) and that in the same line and after the words "or his representative" the words "or tenant" be inserted and after the words "breach of" the words "this Bye Law" to be substituted instead of the words "Bye Law No VII"

That Condition 1 under the Schedule be omitted and the following substituted:-

1. No building shall be commenced until the plan and specifications of the same be approved by the President:- Provided that this Condition shall

irksome and Vexatious to men of a class sufficiently able to be trusted in such matters to render the Condition utterly unnecessary in their case. RBL

Remarks.

Condition recast, because the English faulty and the meaning not very clear. RBL

not apply in the case of owners and their out houses, and of buildings intended for mining purposes only, erected under the authority of a mining Superintendent.

That Condition 3 under the Schedule be removed and the following substituted.

3. That no excavations for procuring earth or other material for building purposes shall be made in or near any building site except with the permission of the sanitary Inspector.

Sir,

With reference to Governme
order No 16,672 (27) dated 12th April 02
No. 7 17.99
stating that sections 24 and 25 of the
Mysore Mines Regulation of 1897
do not authorize the framing of Bye-La
for regulation of traffic or for the
licensing of batteries, I have the hono

to forward herewith the Resolution of the Sanitary Board passed on the subject at its last ordinary monthly meeting, and to observe that Government have already approved Bye Law X passed by the Board to provide for the regulating and licensing of places intended for the sale of articles of human Consumption, the Bye-Law now proposed to enforce licensing of bakeries, merely goes a step further, and insists that the manufacture, as well as the sale of an important article of human Consumption shall be Conducted under sanitary Conditions.

Section 1 Clause 4 provides for the making of Bye-Laws by the

Board for the conduct of its business, and one of the most important parts of the Board's business is the protection of the public within its area of Jurisdiction from the danger of foods manufactured under insanitary Conditions —

This Bye-Law and the one enforcing carriage of lights after dark, are usual Bye-Laws in force in all respectable Municipalities, and if Government consider that Section I Clause 4 is insufficient authority to enable the Board to frame such Bye-Laws, I would request that Government will kindly consider the advisability of giving the Sanitary Board power to frame their own Bye-Laws, to the same extent as that enjoyed by the Cities of Mysore and Bangalore.

To.

Secretary to the

General & Rev: Departments.

Sir,

I have the honor to request you to move Government to pass the following Correction of Section 6 Bye Law X of the Kolar Gold Fields Sanitary Board.

After the word, "Sale," in line 3 of section 6 insert the words, "or Store, or exposure for Sale"

The section will then run "whoever without first obtaining a license from the President

under Section 1 of this Bye-Law uses any place, shop, stall, or premises, not being a licensed market or stall, for the sale, or store, or exposure for sale of any meat fish" &c as before.

This section forms the general Clause to the Bye-Law for Breach of Section 1, as it stands it only provides for Breach of that section in one direction.

Offences of storing, or exposing for Sale articles of human — Consumption, in unlicensed place Can at present only be punished under Section 26 of the Mysore Mines Regulation, as a breach of a rule framed under section 24 of the Mysore Mines Regulation

Act iii of 1897.

Indeed it is somewhat doubtful whether a Conviction and sentence under this section 26 of the Mines Regulation, for a Breach of section 1 of Bye Law X by storing an article of human Consumption in an unlicensed place, could be legally upheld.

The necessity for the correction being therefor apparent and urgent, I would ask that the early Sanction of Government to it may be obtained.

A Copy of the Sanitary Board's resolution No 9 accepting the proposed amendment is herein enclosed for reference.
